SwimEx Residential Triton

Crafted for the homeowner who demands the best or nothing at all, this one-piece pool features a wide open layout, 50" water depth, and two seats for relaxation. Two water return channels run along the exterior of the main swimming area and return water to the front of the pool for a smooth overall water current flow. A quiet and efficient commercial grade electric motor drives a specially calibrated propeller creating a consistent swim current. Built with solid SwimEx fiberglass construction, the Triton is easy to maintain and is an affordable option for the discerning swim spa owner.

This efficient pool can be installed above ground, in-ground or partially in-ground. In addition, easily customize the pool interior to meet specific exercise or therapy requirements.

Key Highlights:

- Fiberglass construction and Gelcoat finish
- One-piece design with 50" water depth
- Quiet energy efficient electric motor
- Optimized propeller generated water flow
- Fully adjustable water current with 99 speeds
- Above ground, in-ground, or partially in-ground installation
- Hand-crafted in the U.S.A.
