

SWIMEX HYDROTHERAPY POOLS COMPARED WITH OTHER POOLS

Features	SwimEx	Endless Pools
Wide and deep current – smooth laminar flow	Yes	No
Current flow acts like second pair of hands to improve core and trunk stability/balance	Yes	No
Ability to challenge elite and competitive athletes through swimming	Yes	No
Workstations for closed chain and plyometric exercises	Yes	Some
Deep-water running against a wall of water	Yes	No
Motorized integrated treadmill	Yes (optional)	Some
Water speed	Up to 25,000 gpm (94,635 lpm)	Some: 1,000 gpm (3,780 lpm) to 5000 gpm (18,927 lpm)
Ability to measure and repeat water flow	Yes – 99 adjustable water speed settings	Some
Monitor, measure, and repeat treadmill speed	Yes – industry-exclusive EDGE monitor	Some
Variable water depths	Yes	Yes
Construction	Structural fiberglass with insulated balsa core and maintenance-free gel coat	No
Free standing, self-supporting	Yes	Some
Industrial grade high-performance motor	Yes	No
Multiple section and one-piece models	Yes	Yes
Entrance steps	Yes	Yes
Warranties	10 year structural / 5 year surface, 2 year motor	Some
