1000 S

Model:

1000 S

Features:

**Largest Residential SwimEx
4', 5' & 6' Deep Sections**

Current:

Paddlewheel Current

DESCRIPTION

1000 S SERIES

The 1000 S swim spa is the largest, most versatile resistance pool in the SwimEx residential pool line. This state-of-the-art aquatic swimming machine is the ultimate home pool. With a water surface spanning 10' x 14' (3 m x 4.27 m), there is ample room for exercise, entertaining, swimming, and fun. The water current on one side of the pool provides plenty of space for side-by-side swimming. The still water in the remainder of the pool creates the perfect counterpart for working out, leisure and relaxation.

To add more versatility this pool can be built with an integrated underwater treadmill. For an even larger pool, the 1000 S can be built in any length between 14' and 22'.

The pool comes standard with 4', 5', and 6' water depths but can also have a custom interior layout to meet personal preferences, such as therapy protocols, workout regimes, and family activity areas.
