

400T Series

400 OT, 480 T

Model:
400 OT

Water Depth:
42"

Pieces:
1 Piece

Model:
480 T

Water Depth:
48"

Pieces:
4 or 8 Pieces

Same pool design available in two different water depths

DESCRIPTION

400 OT

This wide-open, flat bottom pool provides the flexibility to drop in exercise equipment or keep it open for multi-patient versatility. It features a uniform depth of 42" (107 cm), ideal for physical therapy exercises. The 100-speed water current varies resistance as patients progress through treatment.

This functional one-piece pool is easy to install.

DESCRIPTION

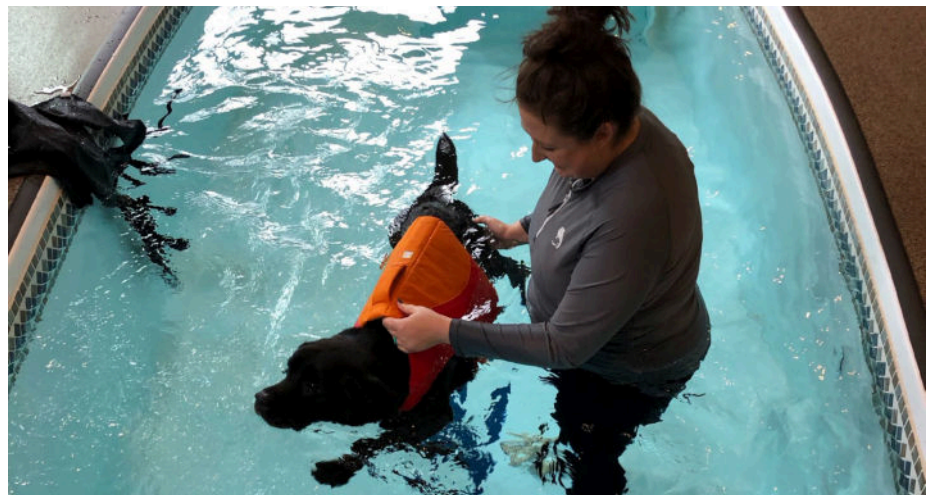

480 T

This pool is designed specifically for several users. A wide variety of protocols, aquatic treatments, and hydrotherapy exercises can be accomplished in one session. The flat bottom, non-skid surface has a uniform depth of 48" (122 cm). The pool's larger water area is great for same-depth protocols and multi-patient treatments.

Add removable in-pool handrails to assist patients in gait and mobility activities.

The 480 T can be delivered in 4 sections or 8 sections for tight access spaces.

Both models are free standing for above ground, in-ground or partially above ground installations. For increased versatility, add a drop-in underwater treadmill or other water exercise equipment.
