Paddlewheel Current

DESCRIPTION

600 S SERIES

The 600 S Series is the most powerful home Swim Spa on the market. This state-of-the-art fiberglass pool is for the homeowner who wants the most extreme versatility, function and intensity from a swimming machine. Featuring a 60" (152.4 cm) water depth and a current that runs 28" (71 cm) deep, the 600 S Series creates a significantly deep and fast water current that is extremely smooth. It comes with a swim arrow, running platform, and front exercise steps. An integrated underwater treadmill can be added to further enhance the versatility of this extreme swimming pool.

Constructed in four separate pieces, the 600 S Series can be factory assembled or built on-site for installation flexibility. An eight-piece design is also available for extremely tight installations.

600 S

All above features

600 S DW

All above features and a deep-water well designed for running, total non-weight bearing exercises and conditioning.
