

Residential Triton

Model:
Residential Triton

Water Depth:
50"

Pieces:
1 Piece

Features:
Propeller-driven water flow

DESCRIPTION

RESIDENTIAL TRITON

Triton has the legendary quality of a SwimEx pool at an entry level price. Built with durable SwimEx fiberglass construction, it is a one-piece pool featuring a wide open layout, 50" (1.27 m) water depth, and two seats for relaxation.

Two water return channels run along the exterior of the main swimming area to create a smooth, even water flow. A quiet and efficient commercial grade electric motor drives a specially calibrated propeller to create a consistent swim current with 100 water speeds.

SwimEx Triton fitness pool is large enough for multiple users, easy to maintain and an affordable option for the discerning swim spa owner.
